Robyn,

Let me start off by thanking you for supporting & sponsoring this bill. I will not be able to make it to testify tomorrow April 13th on HB27, however would ask for you to take my thoughts forward. I am the 9-1-1 Coordinator for the Central Montana 9-1-1 Center, located in Lewistown MT. We are responsible for three counties, Judith Basin, Petroleum, & Fergus County which is a total of 7,798 Square Miles of Rural Montana. I feel that this bill is imparative for us to be able to have cost recovery for the Wireless carriers along with helping dispatch centers such as ours in rural Montana keep their citizens safe by keeping their equipment up to date with the updated technology and their doors open. We would like to ask the board to take this bill into careful consideration and do the proper thing for Montana. Thank you for your time.

Thank you,

Dorothy Gremaux
